File Tree

```
element_count/  
├─ element_count.c  (to submit)  
└─ element_count.h
```

Authorized headers : You are only allowed to use the functions defined in the following headers

- err.h
- errno.h
- assert.h
- stddef.h

Compilation : Your code must compile with the following flags

- -std=c99 -pedantic -Werror -Wall -Wextra -Wvla

Main function : None

1 Goal

Write a function which takes two addresses as arguments, and returns the number of integers inside an array. The first address is the start of the array of integers, the second one is the end of this array.

```
size_t element_count(int *begin, int *end);
```

The way is lit. The path is clear. We require only the strength to follow it.
