## File Tree

```
find_ascii/  
└─ find_ascii.sh  (to submit)
```

**Authorized commands :** You are only allowed to use the following commands

- builtins
- grep
- file(1)
- ls(1)

**Reminder :** Grant execution permission to your scripts before pushing them

## 1 Goal

Write a script that takes a directory path as a parameter. The script will print all the files that are recognized as “ASCII” format in this directory.

```
42sh$ ./find_ascii.sh /sbin  
/sbin/alsa: POSIX shell script, ASCII text executable  
/sbin/dhclient-script: Bourne-Again shell script, ASCII text executable  
/sbin/fsck.nfs: POSIX shell script, ASCII text executable  
/sbin/fstrim-all: POSIX shell script, ASCII text executable  
/sbin/installkernel: POSIX shell script, ASCII text executable  
/sbin/iptables-apply: Bourne-Again shell script, ASCII text executable  
/sbin/ldconfig: POSIX shell script, ASCII text executable  
/sbin/MAKEDEV: POSIX shell script, ASCII text executable  
/sbin/on_ac_power: POSIX shell script, ASCII text executable  
/sbin/osd_login: Bourne-Again shell script, ASCII text executable  
/sbin/resolvconf: POSIX shell script, ASCII text executable  
/sbin/shadowconfig: POSIX shell script, ASCII text executable  
/sbin/wpa_action: POSIX shell script, ASCII text executable
```
